-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

- 6) ☐ Other: _____.

DETAILED ACTION

1. Receipt is acknowledged of applicant's Information Disclosure Statement filed 4/8/2004.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11 and 21-24, drawn to a method to promote healing of damaged tissue after an open heart surgery, classified in class 424, subclass 426.
 - II. Claims 12-20, drawn to a method to promote healing of tissue during open heart surgery, classified in class 424, subclass 426.
3. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation, functions, and effects. Invention I requires several limitations (see claim 1, steps a-f) that invention II does not, including the membrane to be smooth, uniform, 10-300 microns thick, non-porous, and to resorb within 18-24 months from implantation. As evidenced by the additional limitations in invention I, invention II is much broader in scope and one reference would not necessarily anticipated one invention over the other.
4. The inventions are distinct, each from the other because:

Art Unit: 1615

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. A telephone call was made to William Cooper on 8/29/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.
